### About Us

Pasadena Electric, Inc. is a leading provider of electrical services for Industrial, Commercial, Residential, Datacenter, Solar, and Data & Fiber Optics clients. With over 40 years of industry experience, we deliver reliable, customizable solutions to meet the electrical and financial challenges faced by many organizations and individuals today.

Founded by datacenter solution experts, we have expanded our focus and service offering to include a full suite of electrical services. Our licensed, bonded and certified teams of professional electricians are fully equipped to handle projects of all sizes and complexity, at any time.

Our services are designed to increase the overall energy efficiency of your electrical applications whenever possible. We strive to lower your total energy costs in order to maximize your return on investment.

### Service Areas

We currently provide electrical services for the following areas:

Los Angeles County

Orange County

Ventura County

Kern County

San Bernardino County

Please contact us to request service outside of the above locations.

### Fast, Free Estimates

Contact us today for a free estimate on your next electrical project. Our team will work with you to meet your specific project requirements, while staying within your budget.
